December 5th

Blue Knot Chanukah Networking Party

Join us at the Newport Coast Community Club House for networking, dreidles, latkes, and more. Details coming soon to the www.blueknotoc.org web site.

The Blue Knot Mission

Blue Knot is *The Jewish Tech Initiative* and creates opportunities for Jewish professionals in the technology sector to exchange ideas and experiences and expand networks. It also helps track and utilize best practices and emerging trends, learn about Israel's tech industry, and explore connections to the Jewish community.

Blue Knot Orange County connects Jewish hi-tech professionals in Southern California through dynamic networking opportunities, by featuring relevant speakers and by providing informational technology forums. Blue Knot is the premier venue for these professionals to exchange ideas, enhance professional skills, and explore connections to Jewish culture and values.
