

TCVN Announces Unaffiliated Angel Investor Program

TCVN is seeking entrepreneurs and business owners of early-stage companies for one-on-one counseling on business plan development as well as the opportunity to pitch their firms to TCVN's unaffiliated angel investor consortium.

As an added membership benefit, Tech Coast Venture Network (TCVN) recently announced the launch of its Unaffiliated Angel Investor Program (UAIP) designed to educate prospective unaffiliated angel investors about equity investing in early-stage companies, as well as provide a data base of investment candidates. Additionally, entrepreneurs, who are also TCVN members, will have the opportunity to engage in one-on-one counseling with professional consultants on business plan development as well as the opportunity to possibly present their business plans to TCVN's consortium of unaffiliated angel investors for equity capital consideration.

"For over thirty years, TCVN has been focused on connecting entrepreneurs with capital and other much needed resources to successfully launch their businesses," said TCVN Chairman Bart Greenberg. "Our Unaffiliated Angel Investor Program clearly expands our program reach by providing a place where interested prospective angel investors can learn about equity investing as well as be introduced to potential investment candidates. For the entrepreneur, our program provides an opportunity to work with professional consultants at a significantly reduced rate to get them ready for equity presentations. The program is open to accredited investors and entrepreneurs who are members of TCVN. Programs for both angel investors and entrepreneurs will be announced shortly."

For further information, contact Tech Coast Venture Network via e-mail at execdir@tcvn.org, by phone at 714-258-8347, by fax at 714-669-9341 or on the Web at <http://www.tcvn.org/>. TCVN is located at 1405 Warner Ave., Tustin, CA 92780. Entrepreneurs and business owners, who are current TCVN members, may submit business plans at businessplans@tcvn.org. There is a \$115 fee for plan submission.

TCVN is a not-for-profit corporation dedicated to assisting, educating and connecting entrepreneurs and emerging companies with capital and resources. TCVN has been directly or indirectly responsible for the establishment and growth of a significant number of early-stage businesses.
