

YOUR PARTNER FOR SUCCESS

We're revenue builders and we're seeking companies with a passion for top-line growth. Most leadership teams spend the majority of their time working *in* their business. A select few focus their time *on* their business. These are the innovators, the visionary leaders who create great companies -- our clients.

Every day, we can say the world has changed. Every year, what's changed about the world is easily seen. Are you among those changing it? If you are, let's talk. If you're not, what's stopping you?

" Within a short period of time, because of Plenum's efforts, we were introduced to a Fortune 1000 company that agreed to pilot our service....the sales from the pilot generated a 300% incremental annual revenue growth rate...tripling our sales...and a 15% bottom line margin improvement to our business. "

You need a partner whose ambition and passion for success matches yours. A partner with the imagination, insight and foresight to improve your chances for top-line growth. We're revenue builders, compelled to identify and execute on growth opportunities designed to drive results. At Plenum, we build with you, and we know the path to results.
